

Introduction to R and RStudio

SLU DSS 6: Reproducible Research in R
September 5th, 2018

Find Seminar Resources at:
<https://github.com/slu-dss>

The repository for this week is called [research-01](#). Download it to your desktop by opening RStudio and entering the following two functions in the console, one at a time, pressing Enter after each (ask us for help!):

```
install.packages("usethis")
```

```
usethis::use_course("https://bit.ly/2wISdx0")
```

Agenda for Seminar 01:

- Announcements
- R and RStudio Basics
- Packages
- Working with Functions
- Getting Help
- R Projects and Working Directories

Extra resources: We'll post links to some extra resources for getting started with functions in the [README.md](#) file in this week's repository.

Next date: Wednesday, September 19th (1pm to 2pm)
